Europe and Asia, two of the most important continents of the old world, are home to more than three - fifths of the world's population and have undergone great changes in the last two centuries. Turks, one of the largest peoples on these continents, have always maintained the importance of cooperation necessitated by history and geopolitical realities.

With a population of 178 million and an economic size of 1.9 trillion dollars, the Turkic states offer great opportunities due to their rich natural resources and their location on the strategic trade route called the "middle corridor".

Private sector representatives should not be left out of the process and mutual investment, project and aid initiatives should be expanded to cover different areas.

Европа и Азия, два важнейших континента Старого Мира, являются домом для более чем трех пятых мирового населения и претерпели большие изменения за последние два столетия. Турки, один из крупнейших народов на этих континентах, всегда поддерживали важность сотрудничества, обусловленную историей и геополитическими реалиями.

Тюркские государства с населением в 178 миллионов человек и экономическим размером в 1,9 триллиона долларов предлагают огромные возможности благодаря своим богатым природным ресурсам и расположению на стратегическом торговом пути, называемом «средним коридором».

Представители частного сектора не должны оставаться в стороне от этого процесса, а взаимные инвестиции, проекты и инициативы по оказанию помощи должны быть расширены, чтобы охватить различные области.
