Ankara, 24/10/2025

Sayın Üyemiz,

T.C. Ticaret Bakanlığından alınan yazıda, Kiev Ticaret Müşavirliğimiz ile Ukrayna'nın en büyük özel sermayeli enerji şirketi olan DTEK Enerji (<https://energo.dtek.com/en/>) Genel Müdürü arasında bir görüşme gerçekleştirildiği, firma tarafından yapılan bilgilendirmede, devam eden savaş nedeniyle kritik enerji ekipmanlarının tedarikinde acil ihtiyaçlar ortaya çıktığı kaydedilmiştir.

Bu çerçevede, Firma tarafından iletilen ve bir örneği ekte iletilen tabloda DTEK'in tedarik ihtiyacının olduğu ürünler ve bu ürünlerin tedariki ile ilgili bilgilendirmeye ihtiyaç duyulmaktadır.

Söz konusu ürünlerin tedarikini sağlayabilecek firmaların **30 Ekim 2025 tarihine** kadar ozcanb@oaib.org.tr adresine ilgili ürün ve iletişim bilgileri ile dönüş yapması rica olunur.

Musa DEMİR
Genel Sekreter

Ek: DTEK Ürün Tedarik Talepleri

ÜRÜN GRUBU 1		
	Area of Cooperation	Steel Rounds 30HGSA
	Description	Metal rods (round bars) are used in mechanical engineering for the coal industry as blanks for manufacturing parts such as shafts, axle components, fasteners, and more.
	Estimated annual purchase amount	700 000 \$
	Questions	Is cooperation possible under a direct contract (without intermediaries)? What are the prospects for supplying steel rounds?
	Products	
	1	Steel Rounds 30HGSA
ÜRÜN GRUBU 2		
	Area of Cooperation	Production of SVP-27 profile
	Description	The steel profile is used as a mine support to reinforce the walls and roof of underground workings, ensuring rock stability and preventing collapses during the excavation of mines or other underground structures.
	Estimated annual purchase amount	\$25.0 million
	Questions	Is it possible to organize a reference visit to the plant to learn about the production technology? Is a joint project possible for producing SVP-27 profiles based on our drawings in Turkey/Ukraine?
	Products	
	1	Steel Profiles TH-29
	2	Steel Profiles SVP-27

ÜRÜN GRUBU 3	Area of Cooperation	Rubber-fabric conveyor belts, flame-retardant
	Description	Rubber-fabric conveyor belts, flame-retardant, are necessary to ensure the continuous operation of production lines
	Application area	Mining workings of coal mines and central processing plants, hazardous due to gas and dust, transportation of run-of-mine coal with a size of 0–200 mm, as well as enrichment products (coal concentrate, rock, cake).
	Estimated annual purchase amount	55 – 70 km ² ~ \$8.0
	Most commonly used	1000 EP1000/3 4+2 C1
	Questions	Are the companies ready to manufacture products according to the Customer's technical requirements (Appendix 1)? Is delivery of samples (10m) for testing possible? What are the terms and timelines for production and delivery?
	Products	
	1	Rubber-fabric conveyor belts, flame-retardant
ÜRÜN GRUBU 4	Area of Cooperation	
	Description	Twin outboard chain assemblies to chain conveyors Twin outboard chain assemblies to chain conveyors are used in mines to transport coal and rock in underground workings
	Estimated annual purchase amount	≈ \$3.0 million
	Questions	Is cooperation possible for supplying chains for scraper conveyors? Is the company ready to manufacture double-chain tracks (24x86H) for scraper conveyors?
	Products	
	1	Twin outboard chain assemblies to chain conveyors
