Estonian Defence Week will bring together 4000 domestic and international defence experts and companies over five days to discuss and address pressing security challenges, as well as showcase the latest defence industry solutions.

The week opens on 21 September with **Innovation Day**, which will feature leaders from defence, technology and investment and highlight startup pitches focused on dual-use capabilities shaping security across NATO and beyond.

The Estonian Defence Industry Symposium on 22 September will host defence industry experts and policy makers from more than 30 countries. On the margins of the symposium, Ministers of Economy and Industry from the Nordic-Baltic Eight (NB8) will also meet.

The Annual Baltic Conference on Defence (ABCD) on 22-23 September will examine transatlantic, European, and regional defence issues with policymakers, military officials, academics, and analysts.

The central event of EDW is **the Tallinn Defence Exhibition** (22-25 September), featuring more than 100 leading companies from Estonia and abroad and enabling direct engagement between suppliers, investors and public-sector stakeholders.

The programme will also include the **NATO Open Innovation Challenge (OIC)**, which will take place on 24 September and invite startups, researchers, and industry actors from Allied member states to develop practical, rapidly deployable solutions to defined defence and security challenges.

The week concludes on Friday, 25 September, with **hackathons and side events** focused on developing practical security and defence solutions.

INVITATION: Tallinn Defence Expo 2026

September 22-24 @Tallinn Creative Hub

Dear Representative of the Defence Industry

We invite you to register your company as an exhibitor **at Tallinn Defence EXPO 2026**, taking place in Tallinn on 22-25 September as part of the Estonian Defence Week 2026 programme. Over five days, Estonian Defence Week will bring together approximately 4,000 Estonian and international defence experts and companies to discuss security challenges and showcase the latest defence industry solutions.

Tallinn Defence EXPO is the central event of the week. Held at Tallinn Creative Hub, it will bring together more than 100 leading defence and technology companies from Estonia, the Baltic states, and the Nordic countries. The EXPO offers companies an excellent opportunity to present their solutions, build direct contacts with partners, investors, and public sector decision-makers and gain visibility during the region's most important defence-related week.

The more detailed programme for the week is included in the attached EDW introductory one-pager. As interest in participation has been strong and a significant share of the EXPO space has already been reserved, this is a good opportunity to secure a suitable place for your company in a timely manner. Applications to exhibit are submitted through the official registration form, and confirmation from the organisers will follow after review of the application.
